

Developing a Custom Connector

Lab Time: 40 minutes

Lab Folder: C:\Student\Modules\09_CustomConnectors\Lab\

Lab Overview: In this optional lab, you will install the Power Query SDK and work through the TripPin tutorial supplied by Microsoft.

Exercise 1: Install the Power Query SDK

In this exercise you will install the Power Query SDK in Visual Studio so you can create new custom connector projects.

1. Navigate to the following page and follow the instructions to install the Power Query SDK.
 - a) <https://docs.microsoft.com/en-us/power-query/installingsdk>

Exercise 2: Work Through the TripPin Tutorial Lab Sequence

If you are interested in developing custom connectors, you should try working through the TripPin tutorial provided by Microsoft.

2. Navigate to the following page and follow the instructions to work through the TripPin tutorial.
 - a) <https://docs.microsoft.com/en-us/power-query/samples/trippin/readme>
